

# Seminars for Success

---

## Information Pack

# Overview

Seminars for Success are series of events launched and run by Birmingham Science Park Aston. Seminars for Success is just one of the many activities created by the Park in response to the ever growing demand for events specially targeted at aiding business growth and development in the region.

After its original Launch in 2004 Seminars for Success has now re-launched with a new series of events aimed towards SME and Start Up companies. The Seminars will identify critical elements that companies need to consider to drive their business forward.

Seminars take place at Faraday Wharf, Birmingham Science Park Aston and provide a powerful combination of personal development, networking and knowledge sharing.
